This BULK pack is intended for dealer's shop.

MATERIAL DATA SHEET

Name of index	Value	Testing method
Mass per m ² (kg)	3.5+-10%	GOST 17073-71
Fire risk, burning rate (mm/min)	Non-flammable, <100	ISO 3795-76
Durability of connection between the material and the metal surface during flaking-off (N/cm)	1.5	
Package Weight (kG)	5.8	
Package Dimension (W*L*H) (cm)	44.0*29.0*22.0	
Package weight (kg,avg)	5.80 +-10%	
Package volume (m ³ ,avg)	0.0280 +-10%	

PROPERTIES

The material provides good vibration damping and sound absorption inside of the space inside the door.

COMPOSITION

An elastic triple-layered multi-functional acoustic lens, based on bitumen saturated polyurethane foam

APPLICATION

Recommended usage areas: Behind the speakers in the doors

Remove the decorative plastic panel of the car door. Mounting is performed behind a speaker of a car sound system on the inner side of the external wall of a door.

Remove protective paper. The product edge is applied to the mounting surface and is stucked to it evenly without additional force.

The attempt to unstick the product after the performing mounting could cause damage to the product.

The material is installed on dry clean painted metal surface. Temperature in workroom must be from +18 to +30 °C.

STORAGE

Products stored in a room at a temperature no higher than +40°C in the horizontal position on a flat surface at a distance of not less than 1 meter from the heating system in the conditions excluding moisture, oils and direct sunlight, stacked no more than 1 meter in height.
